SECURITY: PLEASE make sure you are running up-to-date, real-time anti-virus and anti-spyware on your computer. Some programs do not run all the time, leaving your computer open to malicious software. And . . . if your program is not constantly updated, you are once again open to the latest threats coming your way. **DON'T ASSUME** you are being protected. Just because you have a program installed, doesn't mean it is working for you.

The damage caused by infections can be devastating. If you have any questions at all about what you have and what you need, please let us know. Protecting your computer against outside attacks is no longer an option. Viruses, spyware, malware, and the like have become a serious billion dollar business -- at your expense! We can help.

.....

In fact, we appreciate it so much, that if someone becomes a 2WiredGuys member because of your referral, we will send you a **\$10.00 2WiredGuys Referral Coupon** good toward any 2WG service or product. Just let us know if you refer someone or let that person know to mention your referral.

Need service? Please address all service-related e-mail to: wecanhelp@2wiredguys.com. Thank you.

Being a 2WG member is like having a computer security blanket.
It's not a matter of if, maybe, or whenever . . . we can help . . .
We are committed to our members.
